Zucchini #	8-10										⊕]⊕]	⊕+	⊕+
L to Z PLANTS	Maturity	Jan.	Feb.	Mar	April	May	June	July	Aug.	Sept.	Oct.	Nov.	Dec.

\* Has a tendency to go to seed coming into warmer weather, best grown in late Summer/early autumn

# Does not transplant easily. If growing seedlings to transplant best grown in single cell seedling trays to minimize root disturbance when transplanted.

♦ Lettuces planted to mature over the summer months should be planted in semi shaded positions.
