\* Key vegetables only, not all vegetables that can be planted at this time are listed. # Sow in seedling boxes for planting out in four to six weeks' time. <sup>1</sup> Best sown in single cell seedling trays as these seedlings don't like their roots being disturbed when transplanted. <sup>x</sup> Prone to cabbage butterfly damage when planted this time of year. **(Parenthesis)** Grow in greenhouse or temporary polytunnel. DOUBLE UNDERLINED Grow in glass/plastic covered seedling box. RED DOUBLE UNDERLINED Grow in artificially heated seedling hot box. <sup>E</sup> or <sup>L</sup> Only plant Early or Late in the month.
