

FOOD GARDEN DESIGN & MANAGEMENT

GARDEN TOUR & TALK

This is a chance to see an active food garden that has been continuously worked for over thirty years. In the course of viewing the garden various aspects of food garden design and management will be discussed. Subjects covered include:-

- Garden & water zoning.
- Pros and cons of various fruit and nut trees.
- Micro climate control.
- Greenhouses and cloche design and management.
- Watering and irrigation options.
- Garden management hubs.
- Compost bin design.
- Siting a vegetable patch.
- Raised bed design & construction.
- Wicking beds.
- Pots in the garden.
- Building up good soil.
- Managing insect and bird pests.
- Chickens as part of a food garden.

WHEN Saturday 24th November at 1:00 PM

WHERE 104 Crompton Street Soldiers Hill.
