## HIGH RISK OF FROST DAMAGE

Do not plant unless in a greenhouse.

## LOWER RISK OF FROST DAMAGE

Best planted in a temporary cloche or polytunnel. If planted without protection then cover with a frost cloth at night if a frost is likely.

## SAFE TO PLANT

OK to plant as is little risk of a frost.

**FROST SENSITIVE PLANTS INCLUDE:** Beans, capsicum, chilli, corn, cucumber, eggplant, tomato, pumpkin, watermelon, and zucchini.
